

Financial Aid Required Course Checklist

Federal regulations allow students to receive financial aid for only those classes that are required for the student's degree. Please list below **ALL** the courses in which the student is enrolled for the indicated term and whether the courses are required for his/her degree or minor. For financial aid purposes, graduate coursework taken by undergraduate students is only considered required if it counts toward the student's undergraduate program of study.

Student – Please complete the student information below & take it to your dean's office (see box to right for information).
